EZRA OKARI

DIGITAL ARTIST | 2D VISUAL DESIGNER

Kenya | +254 1140 597 23 | okariezra15@gmail.com | creativedesigner.vercel.app

PROFESSIONAL SUMMARY

Creative visual designer with a portfolio spanning graphic design, branding, social media visuals, photography, and concept-led visual projects. Brings a strong eye for composition, color, typography, visual hierarchy, and storytelling, with a focus on turning briefs into polished, engaging imagery. Combines a design background with technical training in front-end development and data handling, which supports detail-oriented work such as digital image editing, annotation, visual refinement, and asset variation workflows that require consistency and accurate execution of guidelines. Overall winner of the 2025 eMobilis Hackathon.

CORE SKILLS

Graphic design and visual composition • Branding and visual identity • Social media and promotional graphics • Color, typography, layout, and visual hierarchy • Photography and image selection • Concept development and visual storytelling • Creative direction and style consistency • Detail-oriented review and brief interpretation • Packaging and product-visual concepts • Clear communication and time management

EXPERIENCE

Creative Designer | Freelance / Portfolio Projects | 2026

- Developed branding and visual identity concepts with attention to composition, color systems, typography, and consistency.
- Created concept-led visuals designed to communicate ideas clearly and maintain a coherent visual style.

Social Media Designer | Freelance / Portfolio Projects | 2025

- Created visual content for brand-facing digital communication, focusing on clarity, audience engagement, and consistent presentation.
- Adapted layouts and visual elements to suit different content needs and maintain a recognizable style.

Data Analyst, Technology & Data Support | KamCo, Kenya | May 2025 – July 2026

- Cleaned, organized, and validated business data using Python and SQL, supporting accuracy in collection, processing, and storage.
- Investigated and resolved technical issues across data and web systems, building a habit of careful, methodical review.
- Contributed to planning for an online marketplace, working with customer, product, service, and transaction data.

Freelance Designer | 2024

- Worked on a range of creative design projects, developing visual concepts and refining layouts to meet project goals.
- Applied design judgment to composition, imagery, and presentation across portfolio work.

SELECTED PROJECTS

- **Eco-Friendly Packaging Design (Concept Project):** Explored a minimal, sustainability-focused packaging direction, combining product presentation with clear visual communication.
- **Augmented Reality Storybook (Concept Project):** Developed a concept for combining traditional storytelling with digital interaction, including proposed 3D animations and interactive elements.
- **Interactive Urban Art Installation (Concept Project):** Outlined a public-art concept using motion-responsive lighting to create an engaging visual experience in an urban setting.
- **Online Commerce Platform (React, Node.js, SQL):** Explored user-facing interfaces, backend data processing, and API communication for a web marketplace.

TOOLS & TECHNICAL SKILLS

React (user-interface work) • JavaScript • Node.js • Python • SQL • Git • Google Cloud Platform

ACHIEVEMENT

Overall Winner, 2025 eMobilis Hackathon (eMobilis Technology Institute, Nairobi): recognized for technical creativity and practical problem-solving in a competitive setting.

EDUCATION & TRAINING

- **Bachelor of Dental Surgery** (current): Moi University, College of Health Sciences, 2026 – Present
- **Full-Stack Development:** eMobilis Technology Institute, Nairobi, 2025 – 2026 (GPA 3.8/4.0)
- **KCSE:** Maseno School, Mean Grade A (83/84 points)
