EZRA OKARI

DIGITAL ARTIST | 2D VISUAL DESIGNER

Kenya | +254 1140 597 23 | okariezra15@gmail.com | Portfolio available on request

PROFESSIONAL SUMMARY

Creative visual designer with a portfolio spanning graphic design, branding, social media visuals, photography, and concept-led visual projects. Brings a strong eye for composition, color, typography, visual hierarchy, and storytelling, with a focus on turning briefs into polished, engaging imagery. Interested in digital image editing, annotation, visual refinement, and asset variation workflows that require consistency, close attention to detail, and accurate execution of guidelines.

CORE SKILLS

Graphic design and visual composition • Branding and visual identity • Social media and promotional graphics • Color, typography, layout, and visual hierarchy • Photography and image selection • Concept development and visual storytelling • Creative direction and style consistency • Detail-oriented review and brief interpretation • Packaging and product-visual concepts • Clear communication and time management

RELEVANT EXPERIENCE

Creative Designer | Freelance / Portfolio Projects | *2026*

- Developed branding and visual identity concepts with attention to composition, color systems, typography, and consistency.
- Created concept-led visuals designed to communicate ideas clearly and maintain a coherent visual style.

Social Media Designer | Freelance / Portfolio Projects | *2025*

- Created visual content for brand-facing digital communication, focusing on clarity, audience engagement, and consistent presentation.
- Adapted layouts and visual elements to suit different content needs and maintain a recognizable style.

Freelance Designer | *2024*

- Worked on a range of creative design projects, developing visual concepts and refining layouts to meet project goals.
- Applied design judgment to composition, imagery, and presentation across portfolio work.

SELECTED PORTFOLIO PROJECTS

Eco-Friendly Packaging Design — Concept Project: Explored a minimal, sustainability-focused packaging direction, combining product presentation with clear visual communication. (Portfolio describes this as a concept project.)

Augmented Reality Storybook — Concept Project: Developed a concept for combining traditional storytelling with digital interaction, including proposed 3D animations and interactive elements. This is presented as a concept, not a claim of completed 3D production.

Interactive Urban Art Installation — Concept Project: Outlined a public-art concept using motion-responsive lighting to create an engaging visual experience in an urban setting.

TOOLS & TECHNICAL WORKFLOWS

Add only tools you can confidently use: Adobe Photoshop, Adobe Illustrator, After Effects, Blender, 3ds Max, Cinema 4D, or other image-editing/3D software. Include relevant plugins/scripts only where you have practical experience.
